A] - If all the children around the world  
said together:  
“Let’s love each other,  
let’s love each other forever”,

B] - if all the children around the world  
said altogether:  
“We want to be happy”  
we would sure be happy forever.

Along the streets of all the towns,  
walking friendly hand in hand,  
and the grown ups, right the grown ups,  
they should really understand.

If all the children around the world  
said together:  
“Let’s love each other,  
let’s love each other forever”,

to those grown ups, yes, so grown up  
who are not brave enough to say it,  
to all the children in the whole wide world

C] - they could never say no!

[A > C, orchestra, B > C]
